SWIM SCHOOL

love laugh swim

**"Because swimming
makes your child smarter."**

our philosophy.

At Little Snappers Swim Schools we are award winning boutique aquatic education centers that specialise in small class sizes and a program developed from over 35 years experience. We focus on child development principles, the rights of children in an aquatic environment, and teaching from the heart.

From newborns to squads, our program has produced Olympians & World Record Holders. Our Program Director is an award winning industry leader, published author, lecturer and serves on many industry boards for Swim Australia and ASSA.

The path at Little Snappers is clear - our priority is to produce children who are safer in and around water and who swim with great technique.

Founded in 2011. Family Owned & Operated.

the little snappers journey.
